STOMACH TROUBLE ENDED COMPLETELY BY THIS KONJOLA

Terrible Suffering Ended By This Man; Now Enjoys New and Glorious Health

MR. BERT ROTH

"Konjola made such a change in my health that I will always recommend it to others," said Mr. Bert Roth, R. F. D. No. 2, Wadsworth (near Akron) Ohio.
"For almost a year I suffered from stomach trouble and kidney pains. Every meal brought on intense indigestion pains and a bloated condition resulting from quantities of gas that formed. My kidneys were so weak that I was forced to rise several times every night and the next morning I always felt tired and worn out. Three months ago my strength so that I was always half-sick."
"Then I started taking Konjola and this medicine helped me immediately. I was able to eat things that I didn't dare touch before and there was not a sign of indigestion or gas bloating. Now my stomach is in perfect condition and I know the relief is permanent. My kidneys have been strengthened so that I can sleep through the entire night without rising a single time. That is no reason for endorsing this medicine to others."

Konjola is different from any other known remedy in this section. It contains twenty-two juices extracted from natural plants which invigorate the stomach, liver, kidneys and bowels to more healthy action. The effect of Konjola on the entire system brings amazing relief in cases of suffering that has been going on for years. At the same time, many weak and run-down systems have been restored to a new state of health through this compound. Such a vast number of men and women in this vicinity have told of their experience with this new medical product, until now Konjola is the most highly endorsed medicine that is known in this vicinity. Konjola is strongly recommended here in Marion and Stump and Bama. It is also being sold by the best druggists throughout this section.—Adv.

vulnerable Republican spots of the Mississippi. The Republican leaders admit that there are conditions in the states that are causing them considerable worry.
Nebraska has long been a hotbed of agrarian discontent. Nebraska farmers provided the bulk of those who tried to storm the Republican national convention in Kansas City, and Gov. Adam McMillen has been a conspicuous leader in the revolt against the "Cordage administration." The two Republican senators from Nebraska, Norris and Howell, vote more often against the administration at Washington than with it. Senator Norris has been almost constantly in the line of the "power trust," which Norris has so bitterly fought at Washington.

Governor Smith's speech at Omaha will be devoted mainly to an elaboration of his ideas on farm relief. He also will deal with water power development, although his principal blows on this subject probably will be reserved for Denver, where the issue is somewhat keener.
In Colorado, too, the Democrats believe their chances to be more than passing fair. Republican internecine strife in Colorado has reached such a point that many Republican leaders are sincerely perturbed. Only a few weeks ago, Dr. Hubert Work, the Republican national chairman, considered the situation in his native state so serious that he made a trip there to reprimand the quarrelling factions. Oklahoma is conceded by leaders of both parties to be extremely debatable ground. The state had always been Democratic until Harding carried it in 1920. But four years later, in 1924, Coolidge failed to carry it by a substantial majority. It was the only state outside of the solid south that Davis carried.

FINES ASSESSED IN CITY TRAFFIC COURT

Payments Made by 50 Stop Street Violators Up to Noon Today

Nearly 50 of the 75 motorists of Marion county who were summoned to appear in municipal court this morning on the charge of violating the stop street traffic ordinance had paid their fines at noon today.
Violators facing Judge W. R. Martin this morning were fined \$1 each. About 10 of the number summoned failed to appear for the hearings, which were held at 8:30 and 9 o'clock. Warrants for the motorists not appearing will be served within a few days, John H. Powell, clerk of municipal court, stated today.
With plans already formulated to continue strict enforcement of the ordinance indefinitely, arrangements have been made for hearings in connection with the regular traffic court, every Friday morning.

Both of Leonard's pilots, it is said, have had experience dating back to war days.

SANDUSKY COMPANY DESTROYED BY FIRE

Damage in Spectacular Blaze Totals \$250,000; Plan To Rebuild

Sandusky, Sept. 7.—More than 200 employees of the Harr Rubber Products Co. here were idle today as a result of the spectacular \$250,000 fire which destroyed the company's plant last night. The loss is said to be covered by insurance.
Fire departments from Fremont and Norwalk were rushed here to help check the flames, which for a time threatened to spread to nearby rooming houses and manufacturing concerns. Millions of toy balloons and other rubber novelties were destroyed. Several small tanks of naphtha and other chemicals exploded, sending out showers of flame. A number of small fires in the vicinity resulted, but these were quickly extinguished by spectators and firemen.
One employee of the company was overcome by smoke. Rebuilding of the plant will begin as soon as insurance adjustments are made, according to Nelson Barr, president.
The company, a former Lorrain concern, moved here five years ago.

The New Book

By FRANCES JENNINGS

Adams Beck, lived in the East, analyzed the turn of mind and absorbed the culture. The West seems facts, causes, explanations; recognizing that the ultimate reason for things is probably unattainable, but blindly pursuing it. The East gave the ultimate truth in unattainable to our present state of mind.

Adams Beck is just like every other man who is attracted and repelled by the East. He is called "The Foolish" because he is a fool in the eyes of the West. He is a fool because he is a man who is attracted and repelled by the East. He is a fool because he is a man who is attracted and repelled by the East.

fact, who pined for a woman to let him run a government: Lee Tan, who considered Confucius a low-brow, and Mencius, who loved to display his knowledge of rites.

In the unattainable teachings of these philosophers is the story of oriental philosophy, as told by L. Adams Beck.

Is the Laborer Worthy of His Hire?

This Valuable Service Deserves Adequate Compensation

YOU will probably be surprised to learn that a great majority of checking accounts are handled by banks at a loss. There are two main reasons for this. First, more than 90% of all business transactions involve the use of checks. The service is so convenient, accurate, safe, and so economical of time that nearly everyone pays by check nowadays.

Second, cost of bank service has risen in keeping with everything else during the past dozen years. Running expenses have gone up 60%; taxes 60%; salaries 80%; nearly everything else doubled.

At the same time, the source and rate of bank income from checking accounts has not kept pace. As a result, many checking accounts which formerly earned enough to offset the cost of service are now handled at a loss.

Would You Go Back?

No one who has ever known the convenience, safety, and prestige value of a checking account would willingly go back to the old, risky, time-consuming method of handling funds in cash. The check is the modern, efficient, business-like way to transfer money. The service is of sufficient value to make most people willing to pay money for it. But banks only ask that enough money be left on deposit to permit each account to earn its own way.

The Profits of a Substantial Balance

The surprising fact is that the greatest profit of a substantial balance comes to the depositor himself. The bank is only a custodian of the funds. Its returns are more or less fixed. But the depositor gains in many ways.

A surplus is proof of business ability. It shows balanced judgment, liquid funds to seize opportunities and to offset possible reverses. It builds credit. It raises personal morale of the owner. An adequate balance in your checking account will profit you handsomely in many ways.

Get in touch with your banker and let him show you the advantages of having your balance. A larger reserve will give you more for this service, and bring to you the satisfaction of knowing your money is safe.

Boxing Is Entering Inevitable Period Of Readjustment

Pot of Gold at Rainbow's End Has Turned to Brass, Billy Gibson Tells Writer

Fighters in Future Will Be Paid According to Their Worth; Phenomenon of American Madness Died with Jack Dempsey

BY DAVID J. WALSH
NEW YORK, Sept. 7.—Boxing, great in the past, is now a game in which sniping and backbiting is the order of the day. The era of the "readjustment" has begun, and the fighters will be paid according to their worth. The phenomenon of American madness died with Jack Dempsey.

The last big gate achieved. There may be another million dollar house but Gibson doesn't expect to see it. That phenomenon of American madness died with Dempsey, in the opinion of this boxing man who made and remade successive fortunes in his "racket" and finally produced champions in two major classes in such a manner as to make them appear greater than they really were.

"I think the million dollar gate is only a memory now because it isn't reasonable to look for a return of the circumstances that made it possible," Gibson declared. "In the first place, we had Dempsey, an unusual man. He combined great showmanship with an ability to fight and you don't get many like that. In the second place, he appeared during an unusual period—right after the war when the public had become accustomed to paying big prices and had the money to pay them. It would be a miracle to get another such man as Dempsey at another such time; and I feel that only a combination of the three—a great showman, a great fighter and a period of great prosperity—could bring back the million dollar matches."

Sullivan in Wrong Era

"Sullivan was the last great champion of the Dempsey type. But he wasn't fortunate enough to live in such an era. Jeffries was popular but he wasn't a showman. Perhaps, if we could get another Sullivan, another Dempsey or even another Jeffries in the next year or so, we might have another flurry in high finance, for that sort of thing doesn't die abruptly. It passes off gradually but, once having passed, it is gone for good."

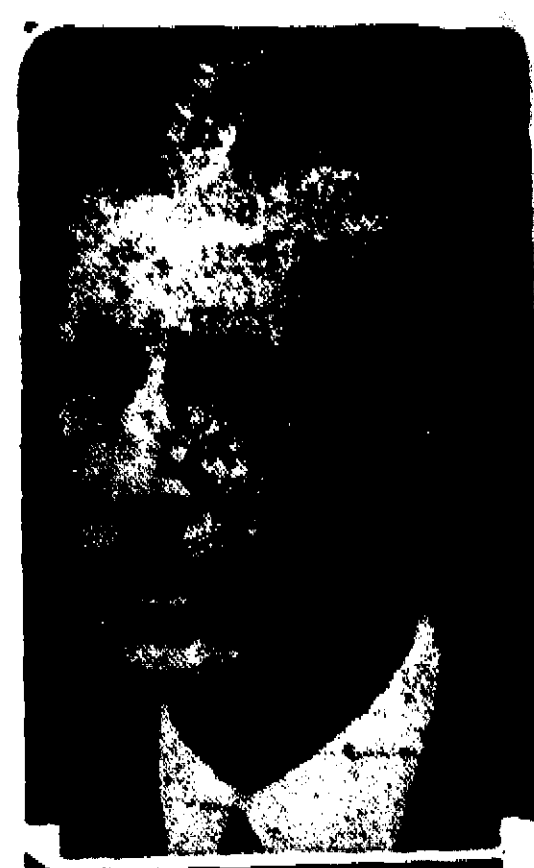

The writer suggested, in view of these considerations, that Dempsey, therefore, stood as the redeemer of progress, civilization, mankind in general and the million dollar gate.

"Not a chance," quoth Mr. Gibson without hesitation. "You forget that Dempsey no longer has the combination I'm talking about. He still has the showmanship, the appeal. He might even catch some of the ebb tide of dollars that still are floating around without a home, if he had the third part of the combination. But he hasn't. He is all washed up as a fighter and most of the fans know it."

"I think one of main reasons he has retired is that he knows he can't get the money any more."

Just what the other main reasons might be, the writer didn't trouble to inquire, knowing full well that there are only three reasons for a fighter doing anything. They are, namely, reading rapidly from left to right—money, money and money.

RIVALS IN PENNANT FIGHT

Miller Huggins, poppy manager of New York Yankees, and Connie Mack, gray-headed pilot of Philadelphia Athletics, are fighting it out for first place in the American league, with the odds slightly in favor of the older.

BRITISH GOLFERS NOT PLEASED WITH LINKS FOR MATCHES IN U. S.

Say Courses Heavy and Firm, Making Play Difficult; Too Much Water

Chicago, Sept. 7.—American golf courses are kept too wet, the turf is too heavy and the greens are too hard and firm to exactly suit British golfers.

That is the opinion of golfers from the British Isles, who, as members of the British Walker cup team, have just completed a visit in the United States.

Bob-o-link course at Highland Park, Ill., scene of this year's Western amateur, where the British played for a week before the Walker matches at the Chicago Golf Club, Wheaton, Ill., was pronounced an extremely beautiful course by the Britons, although they found it difficult to play.

English Turf Lighter
"In England golf courses are not artificially watered as they are in this country," Dr. William Twaddell, captain of the invading golfers, explained. "At Bob-o-link and other American courses watering keeps the turf very heavy. Too shots get little roll and on the greens one finds he may shoot right to the pin. In England we have light or turf and at the greens we trickle our shots, letting them roll a little, instead of trying to shoot right to the pin. In America at the start we had some trouble but when we got the confidence necessary to try to get right up on the greens and once on the greens to shoot direct for the pin and not trickle, we were all right."

American methods and innovations in golf are closely watched in England, the visitors said, and because of the intense admiration in the Isles for Bobby Jones, of Atlanta, Georgia.

Wore Knicker
Tom Perkins, the 23-year-old British amateur champion who played with the Walker cup team here, was mistaken for an American very often. He wears the bright raiment of Yankee players and often does not play with the blazer or jacket, which is considered a golf dress essential by most Englishmen.

None of the visiting players wore the old-fashioned long gray trousers but played in the American style of knickerbockers, although most of the Britons insisted on wearing jackets.

Lots and lots of people don't want to make a fortune. They want to enjoy themselves.

ROUGHS FOR GAME

Walton League Would Have Courses Turned Into Refuges

Chicago, Sept. 7.—A plea for golf clubs to set aside their "roughs" as bird refuges, the water hazards as wild fowl sanctuaries, and to stock their creeks with fish, has been made by Beth E. Gordon, conservation director of the Isaak Walton League of America.

"Although anglers and hunters can do little to assist golfers, unless they can help to rescue lost balls from the creek bottoms, it is within the power of the golfing fraternity to render real assistance to their brother sportsmen by following this suggestion," Mr. Gordon said.

The plan has been tried by one large golf club near Chicago, on the water hazards of which numbers of wild fowl have bred and find refuge, thus increasing the sport of the hunters on nearby marshes.

BREAKS ARM

Sandlot Pitcher Cracks Bone While Making Throw

Greenville, Sept. 7.—Noel Mumm, pitcher on one of Greenville's sandlot base ball teams, was wondering today "how it happened." He was pitching a game when after making his usual windup and delivery of the ball, his arm became useless and pained severely.

A doctor's examination today showed the arm to be fractured between the elbow and shoulder.

Athletics Fail to Hold Own With New York Yanks

If the Athletics fail to snag the 1933 pennant it will be due almost entirely to their inability to play effective baseball against their arch-enemies—the Yankees.

In the team versus team test during the first 14 of the 22 game battle between the Athletics and the Yankees, the latter crew has demonstrated an indubitable superiority.

Had the Yankees been required to play only the Athletics this season, the New Yorkers now would be so far out, in front that even Cholly Laidbergh, in his newest speed plane, couldn't catch up with them.

The first 13 combats between the clubs resulted like this:

Team	Won	Lost
Yankees	13	5
Athletics	5	13

Thus it can be seen that the Yankees gained an eight game advantage over the Athletics in the inter-team play. If the Athletics could have held them even—won nine instead of five, Athletics un-

doubtedly, would have their nose well in front in the American league race.

But they didn't.

COACH GAUTHIER TO START WORKOUTS AT DELAWARE SEPT. 10

Squad of 85 Expected To Turn Out at Opening Session

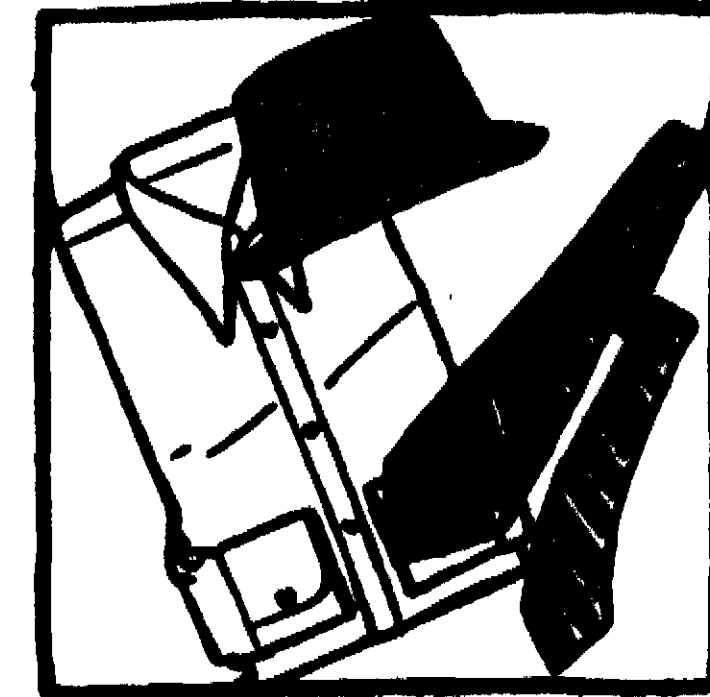

Delaware, Sept. 7.—First call of football candidates at Ohio Wesleyan university was issued here today by Coach George Gauthier. The gladiators are to report for practice on the morning of Wednesday, Sept. 12, if first day on which practice may be held under the regulations of the Buckeye Athletics conference.

Coach Gauthier expects to have a squad of 50 to 55 varsity football men this fall. Practice will be held twice daily throughout the week prior to the beginning of class work at the university, Sept. 10.

Men finally took off their coats summer, but they had to sacrifice the suspenders to do it and go around with their pants dragging on the ground.

MEMORIAL PROGRAM TRIBUTE TO BRIGEL

Eulogies on Late Secretary
Given at Meeting of Marion
Elks' Lodge

Special ceremonies honoring the memory of John M. Brigel, secretary of Marion Lodge No. 32, B. P. O. Elks, were held at the weekly meeting of the lodge last night. Mr. Brigel, who had been prominent in local Elks' affairs for 25 years, died Thursday morning at his home on Leeder st.

His death was caused by apoplexy, with which he was stricken at the Elks' quarters late Tuesday afternoon. Elks' sympathizers everywhere will be conducted in connection with the funeral, to be held at the home at 2 o'clock Saturday afternoon, and at the First Reformed church, South Prospect st., at 2:30 o'clock. Officers of the local lodge will be in charge of members of the lodge will attend in a body.

Burial in Elks' Home
Mr. Brigel will be buried in the "Elks' Home," the burial plot established at Marion cemetery by the local lodge. The late secretary was one of the leaders in the movement to purchase the ground and maintain it as a permanent burial place for members of the order.

Memorial services last night were conducted by B. E. Freitman, exalted ruler, and eulogies paying tribute to Mr. Brigel were given by James Wark, lodge chaplain, T. A. O'Leary, S. G. Kiewit and Carter M. Patton.

Following the meeting, members of the lodge went in a body to the late home of the secretary, 265 Leeder st., to hold a service.

In connection with services held last night honoring Mr. Brigel, it was stated that he had been a member of the local lodge since March 12, 1900, the date of his initiation.

Reports of the state association meeting, held recently at Cedar Point, were submitted at last night's meeting. It was announced that although Marion lodge was defeated in a ritualistic contest for the John G. Price cup, James Wark, the local lodge chaplain, had the honor of taking the chaplain's part with Cleveland lodge, the contest winner.

The exalted ruler announced that Marion lodge will resume its weekly meetings following the customary summer schedule, which provides for sessions only once a month.

Page is All Set For Kids' Last Big Vacation Party

By Don Kite Safety Club Editor. (spin out to the lake? Do you know just what that tempting picnic basket means? Think it over and see if you will build?) Surely every one of the members of the "Just Kids Safety Club" has his pin found by now and is all set for the party at Crystal Lake. Parties should be collected and ideas of how they're going to be spent should be thought out. Then school.

Saturday and Sunday, and then your fun is spoiled for nine more months. No more chances for such a happy party after school begins, kids, for members of the club should be diligent pupils. You'd better make the best of this last chance to be yourselves. Remember, it's just three cents a ride, and

as many rides as you want. Nine cents for the bathing pool, but if you bring your own suit it will be only six cents. "Addie" Bain has promised that he will be on the grounds all day with his toys, and attempt to do all he can so that you may have a good time. Contests will be held, races run, and all sorts of good times will be yours. Of course, by now all of you have counted your parents into taking a picnic supper to the park. Remember, free coffee, cream and sugar and ice water will be served to every one with a picnic supper.

LOS ANGELES, Sept. 7.—These people certainly do come in handy. Here is Mark Sennett, who has been ready to produce "The Wolf of London" for the past week, but unable to hit the big screen until he gets the necessary equipment.

When the equipment comes, he is expected to produce a picture within a week. Sennett will have a number of pictures to produce for the coming season. These three pictures are the first of the season.

under contract to Mr. Sennett, will be featured in his first picture and, incidentally his second feature length picture.

"Dirty Work" is a comedy written by Mr. Sennett himself, and it deals with aviation. Johnny Burke does all the dirty work—and I suppose he even gets cheated out of the girl in the end. Matty Kemp wins her in time, but not in real life. These two youngsters have apparently come to a parting of the ways, for one crew. Sully with other crew and Matty beaung pretty girls at this and that social function.

TALK about "he walked right in and turned around and walked right out again"—that literally happened to Harland Thompson, well-known New York writer. Mr. Thompson

Leave the Loaf on the Table

Home looks like the best place in the world, and the friendliest thing in it is the loaf of Bamby Bread on the table.

Mother left it there when she cut the last thick slice that you ate, spread with honey, out under the apple tree.

Bamby Bread supplies even greater nourishment than the rich, hearty foods, plus an ease of digestion they lack.

Bamby Bread

is sustaining, nourishing, delicious. This loaf made from pure ingredients of a high quality is the safest of foods, when growing is the main issue of life. Its wholesome flavor tempts the appetite while its nourishment supplies energy and vitality.

one reached here one day and the next he was ordered by Winfield Woodson to go to Oregon and write some added scenes for "The Wolf of London" for F. W. Maenza. He just has time to kiss his wife, Marion Spitzer, grab the toothbrush and make hurried tracks for the great open spaces for Maenza will direct his next epic there. You will remember this is a story of the wheat fields.

SALLY O'NEILL is getting in so many pictures as is humanly possible before she leaves for Europe. There haven't been many idle days for her these last few months, it's true. Work, work, work. It may make Jack a dull boy, but it certainly does pay the rent and keep the old wolf away. Well, Sally begins right after the holidays on "Applause," with Roland Drew opposite her. Roland Drew (or Walter Goss)—take your choice—is the same one who was brought into the movies by Edwin Carver when he cast him opposite Dolores Del Rio in "Rahona." Corliss Palmer, whose figure these days is the admiration of all who see her, so many pounds has she lost, will play one of the leading feminine roles. It's a Tiffany-Stahl opera.

Society Brand Clothes

Our Answer is—A Suit with Peak Lapels ---

When a young man approaches us with troubled countenance, and says he's tired of the style of clothes he's been wearing, and wants something really different—we answer by showing him the suit shown here. A "peak lapel" style (see diagram) which is becoming immensely popular this Fall. Trim, vigorous—a splendid example of the Society Brand cut.

The suit referred to is a two-button coat, broad shoulders, trim waist. Note the pointed or "peak" shape of the lapels in line, sturdy fabrics—

You Can't Break A Kroehler

Kroehler Living Room Suites —built in the world's biggest upholstering shops—suites that are backed up with "A Million Dollar Guarantee"—suites that will wear a whole lifetime and then be prized by the next generation —suites that can't be damaged by 150,000 blows struck with an 80-pound sack of sand—that's what we are showing in our window—that's the kind of suite you get when you buy a Kroehler. You pay no more for a Kroehler than you do for just an ordinary suite. Three big carloads of them. Low prices. Easy terms.

"Kroehler Made"

A Guarantee of Quality Construction

In a Kroehler Davenport or Chair the springs are supported on a steel under-structure — similar in design to a fine box spring. This is the most modern development in upholstered furniture. Ordinary furniture has cloth or burlap strips that tear loose from the frame and involve expensive repairs; but Kroehler Furniture keeps its shape permanently. It gives you the permanency of metal and the resilience of finely tempered steel. Kroehler Furniture retains its beautiful lines and luxurious comfort for years.

Lydia E. Pinkham's Vegetable Compound Helps Her So Much

Pittsburgh, Pa.—"I was just completely run-down. I had tired, heavy, sluggish feelings and I could not eat. I was losing in weight. I read so much about Lydia E. Pinkham's Vegetable Compound and what a good medicine it is that I started taking it. I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound and about the same in tablet form. This is one medicine a woman should have in the home all the time. I am improving every day and I am sure able to eat. I am willing to answer any letters asking about the Vegetable Compound."—MRS. ELIA RICHARDS, 21 Chautauque St., N. S. Pittsburgh, Pa.
